

ALUMINIUM CARTRIDGES

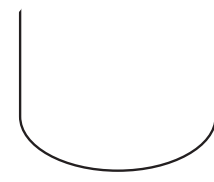

Thanks to the development of new innovative printing techniques, our aluminium cartridges can be printed in 6 colors with several prints. Other technical options can also be proposed such as safety triangles (tactile marks), as well as different interior finishes (alkaline wash, interior wax). Our cartridges are available with rolled rim, crimping flange or with straight rim. We also provide all accessories for cartridges such as plastic canula, plastic canula with ring, plastic plunger, aluminium plunger, aluminium bottom without ring, aluminium bottom with easy-open ring.
